I’m Bob. Frankston on Facebook. Note that I usually post publicly, so there isn’t a strong need to friend me. So, I apologize in advance for my backlog of requests I haven’t responded to. Typically, nothing personal – just one more thing to think about.

It’s easier to post simple thoughts on Facebook than to create a formal posting. Eventually, I hope to consolidate these thoughts into formal essays. In the meantime, I’m providing a list of Facebook posts that might be of interest to others. Please forgive the typos and consider them mulls-in-progress.

Facebook does have the advantage of providing an opportunity for a conversation – something I haven’t implemented on my site.

I’ve done very little posting on Quora but plan to list any new postings here.

I’ll attempt to list these in reverse chronological order and, at times, any summary may be longer than the original post. I’m going to try to use * or † for posts I do want to follow up on in a longer essay or a column.
